

SPECIAL CUT-OFF VALVES

ZOPo, ZOKo

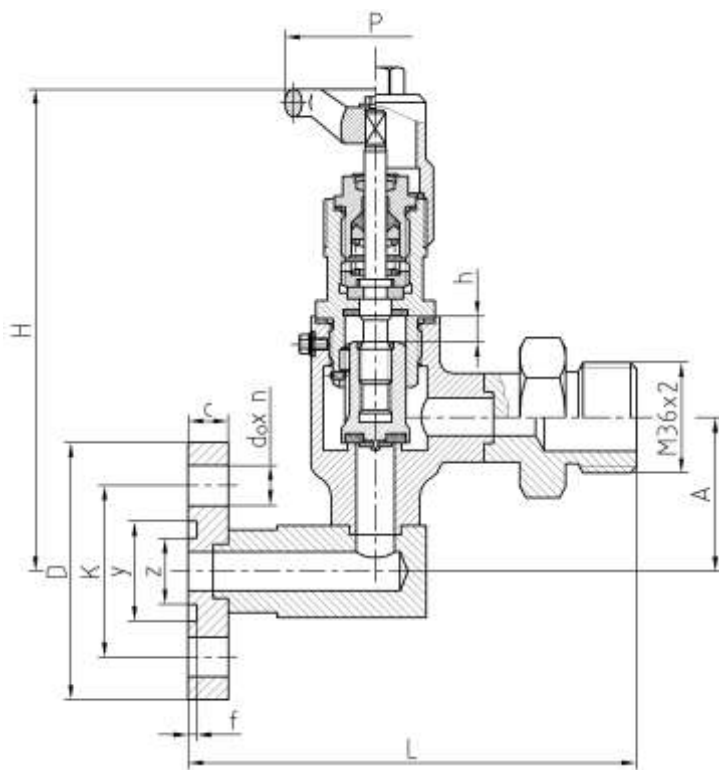

Nominal diameter: 10 mm

Special cut-off valves ZOPo and ZOKo are used for manual draining of oil from cooling installations and equipment. These valves should be installed together with drain valve ZS-10.

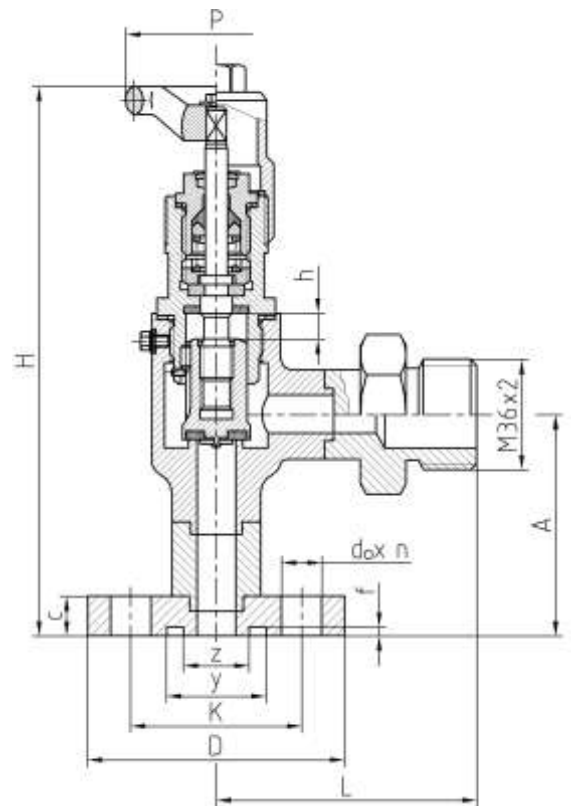

Working parameters:

Working pressure: 25 bar, temperature range: - 40°C / +150°C.

Working medium: ammonia, freons, LPG, air and other non-aggressive media.

ZOPo

ZOKo
